

West A Street Improvement Project

West City Limits to Folsom Street

Public Open House

Thursday, May 25, 2017 5:30 PM - 7:00 PM
Roper Elementary School, 2323 S. Coddington Ave.

PROJECT PURPOSE

The purpose of this project is to improve the West A Street corridor beginning at the West City Limits and extending east to the intersection of Folsom Street.

The project will be divided into two separate construction projects. Project A will run from Coddington Avenue to Folsom Street and may include pavement rehabilitation, pavement widening and minor intersection improvements. Construction for Project A is anticipated to begin in 2020. Project B will run from the west City Limits to Coddington Avenue and may include roadway reconstruction and intersection improvements. Construction for Project B is anticipated for 2021.

Improvements that may be considered for this project

- Raised medians
- Additional lanes
- Trail and pedestrian access
- Storm water drainage enhancements
- Street lighting
- Intersection control
- Four-way stops
- Two-way stops
- Traffic Signals
- Roundabouts

How will the City decide on the final design for construction?

The alternatives will be evaluated on multiple criteria that include: environmental impacts, ROW impacts, constructability, access during construction, cost, and public input. The City will select a final design alternative after the second public meeting in October 2017.

How can the public be involved with the West A Improvement project?

Public engagement opportunities are available throughout the project study, design and construction phases in the form of public meetings.

Citizen and business advisory committees are being utilized on this project. If you would like to be part of an advisory committee, sign up online, email us at westastreet@olssonassociates.com, or sign-up at one of our public meetings.
